## PROPERTY DESCRIPTION:

Beautiful home and 44.21 ± acres just 10 minutes west of St. Clair on a dead-end road! This homesteader's dream offers many possibilities perfect for a family, all your hobbies, and room to hunt and hike. The inviting 4-bed, 4-bath home has tons of natural light while keeping the warm tones of wood floors and accents throughout. It almost has a lodge feel with a wood-burning fireplace, a wall of windows looking out over the backyard, and a small lake. There is a very open concept with a large dining/living room combo that flows to a massive kitchen with an island. You'll keep everyone fed with the huge stove top and double ovens. Head up the open staircase to 2 bedrooms with a hall bath and the primary suite with a bath and a private balcony. If you need more room, there is a 4th bedroom on the main floor, or you can use it as an office. The walkout basement is partially finished, with a full bath and 2 sets of French doors ready for your final touches. The home also has a backup wood stove that uses radiant water heat, allowing for a less expensive utility bill. The metal barn will dry your equipment and take on various projects in the climate-controlled shop with a concrete floor and interior plumbing. The land is a potent mix of hardwoods, two food plots with box blinds, and a picturesque creek. There's a small lake perfect for fishing with the kids. This property has it all – land, a great house with tons of room, outbuildings, and all the privacy you want. This property offers a potential setup for a homesteader, hunter, or anyone wanting space to spread out.
