8.4.3. Approval Process. All applications shall be reviewed to ensure that the proposed improvement is in compliance with these design standards and the Declaration. The following factors may be considered by the ARC in determining whether or not a permit shall be granted: (a) proposed quality of workmanship, (b) suitability of the improvement in relation to the particular site upon which it is to be built, (c) quality of materials, (d) architectural harmony thereof with the immediate surroundings and neighborhood setting, (e) effect of the proposed improvement as planned on existing topography, grade elevations and drainage patterns, (f) resulting outlook from adjacent or neighboring property, (g) preservation of natural landscape, (h) compatibility with existing architectural styles, and (i) such other architectural and land use criteria as shall be set forth in the Declaration or as from time to time shall be determined by the Board. St. Charles County approval shall not preclude the need for ARC approval. The ARC shall conduct its review, accept permit applications, hold meetings, render its decisions and otherwise function as forth in the Bylaws.

8.5. The ARC shall have jurisdiction over modifications, additions, or alterations made on or to existing residential units and the open spaces of each Lot.

restrictions, and to the easements granted in the Plat and this Declaration, as though said land had originally been included in and subject to the Declaration, without exception or qualification of any nature or description.

13.1.4. Signs. Nothing herein shall be construed to prohibit the Declarant from establishing or erecting such promotional signs as it shall determine necessary in its sole discretion on any part of Foristell Ridge Subdivision.
