Notary Public's Certificate
STATE OF ILLINOIS)
COUNTY OF MADISON)

I, the undersigned Notary Public, in and for and residing in the said County and State aforesaid; DO HEREBY CERTIFY that Juanita E. Adams, personally known to me to be the President of the H. ADAMS DEVELOPMENT COMPANY and Scott R. Adams, personally known to me to be the Secretary-Treasurer of said Corporation, whose names are subscribed to the foregoing instrument, appeared before me this day in person and severally acknowledged that as such President and Secretary-Treasurer, they signed and delivered the said instrument of writing as President and as Secretary-Treasurer of said Corporation, and caused the seal of said corporation to be affixed thereto pursuant to authority by the Board of Directors of said Corporation, as their free and voluntary act and as the free and voluntary act and deed of said Corporation, for the uses and purposes therein set forth.

GIVEN under my hand and Notarial Seal this 21st day of November, 1988.

My Commission Expires:

1453 - 115

STATE OF ILLINOIS)
COUNTY OF MADISON)
I, Daniel R. Donohoe, Recorder within and for the County and State aforesaid, do hereby certify that the within instrument of writing was filed for record on the 28th day of November, 1988, at 12:00 o'clock P.M., and duly recorded in Volume 1453 of the Records of the County of Madison, Illinois, at Page 115.

Surveyor's Certificate

I, R. E. DISHER, a registered Illinois Land Surveyor, DO HEREBY CERTIFY that this plat is a correct representation of a survey made under my direct supervision at the request of the owner, H. Adams Development Company, for the purpose of subdividing the tracts into lots as shown. The land is within the corporate limits of the City of Alton, which has adopted a city plan and is exercising the special powers authorized by Division 12 of Article 11 of the Illinois Municipal Code. I FURTHER CERTIFY that the land embraced within said plat does not border upon or include public waters of the State of Illinois nor in which the State has any property rights. No part of said land is situated within five hundred (500) feet of any surface drain or watercourse serving a tributary of six hundred forty (640) acres or more. Iron pipes have been set as indicated from which future surveys may be made.

PLAN OF RESTRICTIONS

REC-3272 950

FOR

CROSSROADS PLAZA - FIRST ADDITION

H. ADAMS DEVELOPMENT CO., a Delaware corporation, hereinafter designated as "DEVELOPER", DOES HEREBY DECLARE and IMPOSE this Plan of Restrictions on Lots 1 through 5, both inclusive in CROSSROADS PLAZA - FIRST ADDITION, a subdivision in the NorthWest Quarter (NW $\frac{1}{4}$) of Section 8 Township 5 North, Range 9 West of the 3rd P.M., which shall be covenants running with the land binding upon all owners and subsequent purchasers, without express reference thereto.

1. The exterior of all buildings shall be faced with brick, stone, or other suitable material acceptable to DEVELOPER.

2. The architectural plan, the precise location, the size of the building, the type of materials for construction, the off-street parking plan and surfacing, and the finished grade on each lot shall be established by or satisfactory to DEVELOPER in the construction of the original building; and thereafter all subsequent improvements, additions, remodeling, replacements, or repairs of the building shall be in harmony with such architectural plan and of the same type of materials and workmanship so established.

3. The said lots shall be used only for such purposes as are permitted under C-2 General Commercial District under the City of Alton Zoning Ordinance No. 211, as amended from time to time. Regardless of anything permitted by such ordinance, no such lot shall be used for automobile wrecking, salvage yard; storage of waste or scrap materials or junk, either as a separate business or in connection with any authorized business, or the manufacturing, processing, or storage of any materials which discharge a foul or offensive odor or emit smoke or dust. The storage of bulk commodities shall be confined to locations with screening thereof as approved in writing by DEVELOPER. Fuel oil storage tanks as a part of the heating equipment of any establishment shall be permitted only if located underground or in back of buildings and so screened as not to be visible from other lots or streets, and in a location as approved by DEVELOPER in writing.

4. No billboards or advertising signs shall be permitted except those identifying the name, business, and products of the occupant of the premises or "for sale" or "for lease" of the premises and shall not be in excess of 300 square feet in size without written approval of DEVELOPER. All signs shall be mounted flush with the building wall except where otherwise specifically approved in writing by DEVELOPER.

5. Front setback lines shall be maintained as shown on the subdivision plat. Side yards of not less than five feet shall be maintained free of buildings. No fence except ornamental fences not exceeding 18 inches in height shall be erected closer to the street than the front line of the building as constructed. The area between the street line and the building setback line shown on the plat shall be used only for off-street parking or decorative plantings and green areas.

ECO-3272 MAY 951

6. All lot area not used for building purposes or not surfaced with concrete or asphalt for parking and driving purposes shall be landscaped and planted and properly maintained with lawn, trees, and shrubs according to plans first approved in writing by DEVELOPER. All unimproved lots shall be kept free of weeds and brush and mowed at regular intervals.

7. All lot owners shall provide ample off-street parking for the use of the owners, their officers, employees and customers. No parking shall be permitted on the public street. No outside loading dock shall be located and constructed without the consent of DEVELOPER.

8. Utility easements are reserved as shown on the plat for the installation and maintenance of utility services to lots in this subdivision or adjacent property as may be required from time to time, expressly including power, gas, telephone, community antenna television systems, water, sewers, and storm drains and ditches. Such easements are not dedicated as public roadway or alley and the owner may make such use thereof that does not interfere with the installation and maintenance of the utilities and sewers or reasonable access thereto. The power and telephone companies shall have free access to install and maintain pole lines and anchors and may cross all lots with service drops not less than 12 feet above ground level or not less than 4 feet above any roof top. Poles, anchors, hydrants, and valves shall be so placed as not to interfere with established driveways. All utility connections for the use of the premises shall be made by the lot owners at their own cost and expense.

9. All provisions therein shall be covenants running with the land as part of the subdivision plan, for the benefit of all lot owners and binding upon the purchasers and tenants, heirs, or assigns. In event any lot owner, tenant, or employee shall violate, attempt to violate, or threaten to violate said restrictions, the DEVELOPER or any lot owner or lessees of a lot owner may prosecute any proper proceedings at law or in equity against such violator to enjoin the violation or to recover damage. These restrictions shall be binding for a period of 50 years from the date hereof and may be changed, altered, amended, repealed, or extended for like periods by an instrument in writing signed by the record owners of at least 60 percent of said lots in this subdivision and in other sections of CROSSROADS PLAZA which DEVELOPER may expressly make subject to this plan, and when placed of record shall be effective as to all lots, except no additional restrictions shall be placed upon any lot without the owner's written consent; providing, however, no change shall be made without the concurrence of DEVELOPER. In event any restriction is adjudged invalid or unenforceable, such invalidity shall not affect the remaining restrictions of this plan. Failure to insist on strict compliance in any case shall not prevent enforcement of these restrictions as to other violations.

PLAN OF RESTRICTIONS BOOK 3505 PAGE 0470

FOR

CROSSROADS PLAZA SECOND ADDITION

H. ADAMS, DEVELOPMENT CO., a Delaware corporation, hereinafter designated as "DEVELOPER", DOES HEREBY DECLARE and IMPOSE this Plan of Restrictions on Lots 6 and 7 in CROSSROADS PLAZA SECOND ADDITION, a subdivision in the Northwest Quarter (NW $\frac{1}{4}$) of Section 8 Township 5 North, Range 9 West of the 3rd P.M., as the same appears from plat thereof in Plat Cabinet 56 Page 24 in the Recorder's Office of Madison County, Illinois, which shall be covenants running with the land binding upon all owners and subsequent purchasers, without express reference thereto.

1. All of the provisions of paragraph 1 to 9, both inclusive, of the Plan of Restrictions for Crossroads - First Addition dated December 20, 1983 as the same appears in Book 3272 Page 950 in the Recorder's Office of Madison County, Illinois, are hereby adopted as the Plan of Restrictions for Lots 6 and 7 of said Crossroads Plaza Second Addition and the same are hereby expressly made subject to and shall be entitled to the benefits of that Plan pursuant to paragraph 9 thereof the same as though the said Lots 6 and 7 were included in the original plat of Crossroads Plaza - First Addition.

2. Nothing therein, however, shall be construed to prevent or limit the construction and maintenance of a chain link fence along the boundary line of said Lots 6 and 7 adjacent to C.M.&W. Railroad right-of-way and to Federal Aid Route 789 Spur Highway right-of-way.

3. This Plan shall be binding for a period of 50 years after December 20, 1983 and may be altered, amended, repealed or extended as provided in paragraph 9 of said Plan of Restrictions of Crossroads Plaza - First Addition.

Dated this 20th day of December 1988

Civil Action No. 05 C 1008
Hon. Rebecca R. Pallmeyer
Magistrate Judge Keys

EASEMENT DEED BY COURT ORDER
IN SETTLEMENT OF LANDOWNER ACTION

WHEREAS, the parties to the above-captioned class action (the "Action") entered into an Illinois Class Settlement Agreement, as of March 16, 2011, (the "Settlement Agreement") (terms capitalized herein and not otherwise defined shall have the meanings ascribed to them in the Settlement Agreement); and

WHEREAS, on August 29, 2011, the Court entered a final Order and Judgment approving the Settlement Agreement and ordering that this Action may be settled as a class action on behalf of the following class:

A class (the "Settlement Class") defined as:

a class comprising all Persons who own or who claim to own, for any period of time during a Compensation Period, any Covered Property, *provided*, that "Settlement Class" or "Class" does not include: (1) Right-of-Way Providers and their predecessors, successors, parents, subsidiaries, and affiliates, past or present; (2) federal, state, and local governmental entities; (3) Native American nations and tribes; or (4) any Person who files a valid and timely exclusion on or before the Opt-Out Deadline.

Members of this Class are referred to below as Class Members;

WHEREAS, the Settlement Agreement provides for the entry of an Easement Deed by Court Order in Settlement of Landowner Action by which the Settling Defendants acquire, to the extent that Class Members have the right to transfer it, a permanent telecommunications easement in the Right of Way adjacent to the property of each Class Member;

THEREFORE, IT IS HEREBY ORDERED AND ADJUDGED THAT:

1. To the extent that each Class Member owns rights in the Easement Premises (as hereafter defined), the Class Member (the "Grantor") hereby grants to whichever of Sprint Communications Company L.P.; Qwest Communications Company, LLC, f/k/a Qwest Communications Corporation; Level 3 Communications, LLC, Level 3 Communications, Inc., and Level 3 Telecom Holdings, Inc.; WilTel Communications, Inc.; WilTel Communications, LLC; and Williams Communications, LLC, f/k/a Williams Communications, Inc., f/k/a Vyvx, Inc. has Designated for inclusion under a Settlement Agreement the Right of Way which adjoins, underlies or includes Covered Property owned by the Class Member, together with it or their successors, assigns, and licensees (the "Grantee"), a permanent telecommunications easement in the Easement Premises. For each county in which this Easement Deed by Court Order in Settlement of Landowner Action is being recorded, a list of affected Class Members and affected parcels is attached as Exhibit 1.

2. The terms and conditions of the permanent telecommunications easement that is the subject of this Easement Deed by Court Order in Settlement of Landowner Action are:

a perpetual easement and right of way (hereinafter, together with the rights and privileges herein granted, the "Easement") and right to place, lay, bury, construct, install, operate, repair,

maintain (including aerial patrol), renew, rebuild, replace, upgrade, expand, relocate, and remove fiber optic cables, copper cables, coaxial cables or other cables through which voice, data, video or other signals are transmitted, conduits, inner ducts, hand holes, splice vaults, poles, optical or electronic equipment, regenerator huts, marker posts or signs, and other related facilities appropriate for installation, use, or maintenance of such cables (collectively, the "Telecommunications Cable System"), in, on, over, under, through and/or across the Easement Premises. The Easement Premises means all that real property that (a) either (i) is included within a parcel of property that is described in Exhibit 1 or (ii) has a common boundary with a parcel of property described in Exhibit 1 (the "Grantor's Property") (for purposes of this Telecommunications Cable System Easement Deed, a parcel of property shall be deemed to have a common boundary with the Easement Premises if it is separated by a non-navigable river or a street, road, or highway, other than a numbered state or federal highway) and that (b) (i) is or was used as a railroad right of way ("Railroad Right of Way") and (ii) is on a side of the centerline of the Railroad Right of Way that is next to the Grantor's Property (the "Grantor Side"), and (iii) extends no more than ten (10) feet on each side of the Grantee's Telecommunications Cable System (A) as it existed on April 13, 2011 (B) where the actively used components of the Grantee's Telecommunications Cable System are moved or placed, provided, however, that only a single 20-foot easement per moved component may exist at any point in time in the Easement Premises, and the width of the moved component's Easement Premises shall be reduced on one side and increased by an equal linear footage on the other side wherever necessary in order that it shall in all places remain solely within the limits of a single Grantor Side of the Railroad Right of Way, and (C) where new components are installed to

connect the existing Telecommunications Cable System to the edge of the Right of Way. The Easement shall be construed to grant Grantee all rights necessary to abandon in place unused components of Grantee's Telecommunications Cable System.

The Easement shall not include the right to construct on the Easement Premises regenerator huts and similar structures ("Buildings") in addition to those existing on April 13, 2011. The Easement shall include the rights to repair, replace, and expand existing Buildings, provided, however, that no such repair, replacement, or expansion shall increase the site that the Buildings occupy, or the height of any Building, by more than twenty-five percent. The Easement does not permit the construction of microwave towers, cell towers, or other components of a primarily aboveground statewide Telecommunications Cable System.

The Easement includes the right to temporarily use the entire Grantor Side of the Railroad Right of Way for construction or maintenance, so long as Grantee uses its best efforts not to interfere with any real property which, although within the boundaries of the Easement Premises, is actually being used by Grantor; provided, however, that in no event shall Grantee be prohibited from using such real property if it is commercially reasonable to do so under the circumstances or if Grantee's Telecommunications Cable System is currently located within such area. The Easement shall include the right of reasonable ingress and egress to and from the Easement Premises over that portion of the Grantor's real property that underlies the Railroad Right of Way and, for repair and maintenance, over any existing private roads of Grantor, where access from public or railroad roads is not reasonably practical, provided Grantee has made commercially reasonable efforts to give prior notice to Grantor of Grantee's use of Grantor's private roads. Grantee shall not be liable for damages caused by its removal of trees,

undergrowth, and brush within the Easement Premises necessary or appropriate for the enjoyment of the Easement. Nothing contained herein shall constitute a waiver of any right that Grantor may have for any damages to Grantor's property outside of the Easement Premises caused by Grantee's action. If Grantee's action causes damage to any of Grantor's existing improvements, including houses, garages, shops, sheds, and fences, or growing crops, which are within the Easement Premises, Grantee shall pay reasonable compensation to the Grantor for such damage to the extent provided by law.

From and after April 13, 2011, subject to all the restrictions and limitations stated herein, the Easement includes the right to construct and install additional components of a Telecommunications Cable System within the Easement Premises. Grantee agrees that, (a) unless it is required to do so by the railroad or other owner of Railroad Right of Way or (b) it is commercially reasonable under the circumstances to do so, it will not install additional components of a Telecommunications Cable System in the area of the Easement Premises that is outside a parallel fence constructed by the railroad or other owner of Railroad Right of Way or is actually being used by the Grantor or its successor, provided, however, that the foregoing shall not be binding upon Grantee if Grantee's Telecommunications Cable System is currently located within such area. If Grantee's action causes damage to any of Grantor's existing improvements, including houses, garages, shops, sheds, and fences, or growing crops, which are within the Easement Premises, Grantee shall pay reasonable compensation to the Grantor for such damage to the extent provided by law.

The Easement includes all rights necessary to the lawful occupation of the Easement Premises by an existing Telecommunications Cable System, and by any additional

Telecommunications Cable System that is constructed and installed by or on behalf of Grantee in the Easement Premises and that is owned or operated by either (a) Grantee or (b) any person or entity to which Grantee sold, granted, leased, or otherwise transferred or may hereafter sell, grant, lease, assign, or otherwise transfer, all or any part of the rights in or use of such Telecommunications Cable System.

The Easement, however, does not apply to any Telecommunications Cable System that existed on April 13, 2011, but that was acquired by Grantee after that date (unless such Telecommunications Cable System or component thereof was acquired from any of Sprint Communications Company L.P.; Qwest Communications Company, LLC, f/k/a Qwest Communications Corporation; Level 3 Communications, LLC, Level 3 Communications, Inc., and Level 3 Telecom Holdings, Inc.; WilTel Communications, Inc.; WilTel Communications, LLC; and Williams Communications, LLC, f/k/a Williams Communications, Inc., f/k/a Vyvx, Inc.).

The Easement includes all rights granted herein that are necessary to authorize MCI Communications Services, Inc. a Delaware corporation, ("MCI"), lawfully to own, operate, use, permit others to use, and maintain the Telecommunications Cable System described in that certain Amended and Restated System Use and Service Agreement, dated September 1, 1991, between WTG-East, Inc., predecessor in interest to MCI and US Sprint Communications Company Limited Partnership, predecessor in interest to Sprint, and used by both MCI and Sprint ("the LightNet System"), provided, however, that nothing in this Easement shall be construed to convey rights to MCI, except through Grantee, in any telecommunications cable system other than the LightNet System.

No oil, gas, or other mineral rights are granted and no existing oil, gas, or other mineral rights are expanded, limited, or affected by this instrument, provided, however, that Grantor shall not use a method of extraction that interferes with or impairs in any way the Easement, the Telecommunications Cable System, or the exercise of Grantee's rights herein.

Grantor shall not, nor shall Grantor authorize others to, construct or create any road, reservoir, excavation, obstruction, structure, or building or change the land grade on, in, over, under, through, or across the Easement Premises without the prior written consent of Grantee, provided that nothing herein shall be construed to affect the rights and obligations of any railroad with respect to the use, improvement, or alteration of its Railroad Right of Way, as provided in any agreement between the railroad and the Grantee, by applicable law, or otherwise.

It is understood and agreed that the Easement is not exclusive and is subject to all pre-existing uses and pre-existing rights to use the Easement Premises, whether such uses are by Grantor or others and whether for surface uses, crossings, or encroachments by communication companies or utilities. It is further understood and agreed that Grantor retains all of its existing rights, if any, to grant, convey, assign, and restrict any and all rights (including future rights and uses) on the Easement Premises, provided, however, and notwithstanding the foregoing, that Grantor shall not use or authorize others to use the Easement Premises in a manner that interferes with or impairs in any way Grantee's Telecommunications Cable System or the exercise by Grantee of the rights granted herein.

Subject to the terms hereof, Grantee shall have all other rights and benefits necessary or useful to the full and complete enjoyment and use of the Easement for the purposes stated herein,

including the right to sell, grant, lease, or otherwise transfer all or any part of the rights in or use of the Telecommunications Cable System.

Grantor conveys the Easement without warranty of title to any property interest in the Easement Premises. This instrument does not address and shall not affect any real property rights, including the priority of interests, between Grantor and any railroad or between Grantee and any railroad, or any of their predecessors, successors, past or present predecessors in interest, successors in interest, successors in title, members, partners, parents, subsidiaries, affiliates, lessees, assigns, and past, current, or future licensees or assignees. This Easement is not intended to impact or diminish any railroad's existing rights or property interests in the Right of Way. This Easement shall not be construed to permit Grantee to interfere with railroad operations. This Easement also shall not permit any component of a Telecommunications Cable System to remain in a Railroad Right of Way except (a) under existing or future agreements with the railroad or (b) in any Railroad Right of Way in which no railroad operates and no railroad retains any right, title, or interest. This Easement also shall not permit any new components to be installed to connect the existing Telecommunications Cable System to the edge of the Right of Way in any Railroad Right of Way as to which the Interstate Commerce Commission or the Surface Transportation Board has entered an order, pursuant to 49 U.S.C. § 10903, that the railroad is authorized to cease to provide or maintain rail service over that right of way and the railroad no longer provides or maintains rail service over that line, provided that if the railroad does not cease such rail service or later reactivates such service, then this limitation shall not apply.

This Telecommunications Cable System Easement Deed is executed and delivered on behalf of Grantor for the purpose of granting the Easement to Grantee in, on, over, under, through and/or across the Easement Premises to the full extent of Grantor's right, title or interest, if any, in or to the Easement Premises, and the Easement granted hereby shall affect the Easement Premises only to the extent of Grantor's right, title, and interest therein. Grantor and Grantee agree that this Telecommunications Cable System Easement Deed shall not grant any rights to the Easement Premises, or any portion thereof, in which Grantor holds no right, title or interest.

No rights reserved to Grantor herein shall be deemed to expand rights reserved to Grantor under any other easement, right of way, license, lease, or any similar instrument or court order. No limitation herein on the rights of Grantee shall be deemed to limit rights heretofore granted by Grantor or its predecessors in interest under any other easement, right of way, license, lease, or any similar instrument or court order.

The terms and provisions of this instrument shall constitute covenants running with the land and shall be binding upon and inure to the benefit of the Settling Defendants, the Grantor, their successors, assigns, personal representatives, and heirs.

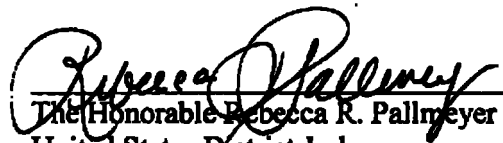

This instrument fully sets forth the terms and conditions of the Easement. There are no oral or other written agreements between Grantor and Grantee that modify, alter, or amend this instrument.

TO HAVE AND TO HOLD the Easement, rights and privileges unto Grantee, its successors and assigns in perpetuity or until such time as Grantee shall cause the Easement to be released of record.

3. Settling Defendants may record this Easement under the terms and conditions set forth in the Settlement Agreements.

THEREFORE, IT IS HEREBY ORDERED AND ADJUDGED THAT:

1. To the extent that each Class Member owns rights in the Easement Premises (as hereafter defined), the Class Member (the "Grantor") hereby grants to whichever of Sprint Communications Company L.P.; Qwest Communications Company, LLC, f/k/a Qwest Communications Corporation; Level 3 Communications, LLC, Level 3 Communications, Inc., and Level 3 Telecom Holdings, Inc.; WilTel Communications, Inc.; WilTel Communications, LLC; and Williams Communications, LLC, f/k/a Williams Communications, Inc., f/k/a Vyvx, Inc. has Designated for inclusion under a Settlement Agreement the Right of Way which adjoins, underlies or includes Covered Property owned by the Class Member, together with it or their successors, assigns, and licensees (the "Grantee"), a permanent telecommunications easement in the Easement Premises. For each county in which this Easement Deed by Court Order in Settlement of Landowner Action is being recorded, a list of affected Class Members and affected parcels is attached as Exhibit 1.

2. The terms and conditions of the permanent telecommunications easement that is the subject of this Easement Deed by Court Order in Settlement of Landowner Action are:

a perpetual easement and right of way (hereinafter, together with the rights and privileges herein granted, the "Easement") and right to place, lay, bury, construct, install, operate, repair,

maintain (including aerial patrol), renew, rebuild, replace, upgrade, expand, relocate, and remove fiber optic cables, copper cables, coaxial cables or other cables through which voice, data, video or other signals are transmitted, conduits, inner ducts, hand holes, splice vaults, poles, optical or electronic equipment, regenerator huts, marker posts or signs, and other related facilities appropriate for installation, use, or maintenance of such cables (collectively, the "Telecommunications Cable System"), in, on, over, under, through and/or across the Easement Premises. The Easement Premises means all that real property that (a) either (i) is included within a parcel of property that is described in Exhibit 1 or (ii) has a common boundary with a parcel of property described in Exhibit 1 (the "Grantor's Property") (for purposes of this Telecommunications Cable System Easement Deed, a parcel of property shall be deemed to have a common boundary with the Easement Premises if it is separated by a non-navigable river or a street, road, or highway, other than a numbered state or federal highway) and that (b) (i) is or was used as a railroad right of way ("Railroad Right of Way") and (ii) is on a side of the centerline of the Railroad Right of Way that is next to the Grantor's Property (the "Grantor Side"), and (iii) extends no more than ten (10) feet on each side of the Grantee's Telecommunications Cable System (A) as it existed on April 13, 2011 (B) where the actively used components of the Grantee's Telecommunications Cable System are moved or placed, provided, however, that only a single 20-foot easement per moved component may exist at any point in time in the Easement Premises, and the width of the moved component's Easement Premises shall be reduced on one side and increased by an equal linear footage on the other side wherever necessary in order that it shall in all places remain solely within the limits of a single Grantor Side of the Railroad Right of Way, and (C) where new components are installed to

connect the existing Telecommunications Cable System to the edge of the Right of Way. The Easement shall be construed to grant Grantee all rights necessary to abandon in place unused components of Grantee's Telecommunications Cable System.

The Easement shall not include the right to construct on the Easement Premises regenerator huts and similar structures ("Buildings") in addition to those existing on April 13, 2011. The Easement shall include the rights to repair, replace, and expand existing Buildings, provided, however, that no such repair, replacement, or expansion shall increase the site that the Buildings occupy, or the height of any Building, by more than twenty-five percent. The Easement does not permit the construction of microwave towers, cell towers, or other components of a primarily aboveground statewide Telecommunications Cable System.

The Easement includes the right to temporarily use the entire Grantor Side of the Railroad Right of Way for construction or maintenance, so long as Grantee uses its best efforts not to interfere with any real property which, although within the boundaries of the Easement Premises, is actually being used by Grantor; provided, however, that in no event shall Grantee be prohibited from using such real property if it is commercially reasonable to do so under the circumstances or if Grantee's Telecommunications Cable System is currently located within such area. The Easement shall include the right of reasonable ingress and egress to and from the Easement Premises over that portion of the Grantor's real property that underlies the Railroad Right of Way and, for repair and maintenance, over any existing private roads of Grantor, where access from public or railroad roads is not reasonably practical, provided Grantee has made commercially reasonable efforts to give prior notice to Grantor of Grantee's use of Grantor's private roads. Grantee shall not be liable for damages caused by its removal of trees,

undergrowth, and brush within the Easement Premises necessary or appropriate for the enjoyment of the Easement. Nothing contained herein shall constitute a waiver of any right that Grantor may have for any damages to Grantor's property outside of the Easement Premises caused by Grantee's action. If Grantee's action causes damage to any of Grantor's existing improvements, including houses, garages, shops, sheds, and fences, or growing crops, which are within the Easement Premises, Grantee shall pay reasonable compensation to the Grantor for such damage to the extent provided by law.

From and after April 13, 2011, subject to all the restrictions and limitations stated herein, the Easement includes the right to construct and install additional components of a Telecommunications Cable System within the Easement Premises. Grantee agrees that, (a) unless it is required to do so by the railroad or other owner of Railroad Right of Way or (b) it is commercially reasonable under the circumstances to do so, it will not install additional components of a Telecommunications Cable System in the area of the Easement Premises that is outside a parallel fence constructed by the railroad or other owner of Railroad Right of Way or is actually being used by the Grantor or its successor, provided, however, that the foregoing shall not be binding upon Grantee if Grantee's Telecommunications Cable System is currently located within such area. If Grantee's action causes damage to any of Grantor's existing improvements, including houses, garages, shops, sheds, and fences, or growing crops, which are within the Easement Premises, Grantee shall pay reasonable compensation to the Grantor for such damage to the extent provided by law.

The Easement includes all rights necessary to the lawful occupation of the Easement Premises by an existing Telecommunications Cable System, and by any additional

Telecommunications Cable System that is constructed and installed by or on behalf of Grantee in the Easement Premises and that is owned or operated by either (a) Grantee or (b) any person or entity to which Grantee sold, granted, leased, or otherwise transferred or may hereafter sell, grant, lease, assign, or otherwise transfer, all or any part of the rights in or use of such Telecommunications Cable System.

The Easement, however, does not apply to any Telecommunications Cable System that existed on April 13, 2011, but that was acquired by Grantee after that date (unless such Telecommunications Cable System or component thereof was acquired from any of Sprint Communications Company L.P.; Qwest Communications Company, LLC, f/k/a Qwest Communications Corporation; Level 3 Communications, LLC, Level 3 Communications, Inc., and Level 3 Telecom Holdings, Inc.; WilTel Communications, Inc.; WilTel Communications, LLC; and Williams Communications, LLC, f/k/a Williams Communications, Inc., f/k/a Vyvx, Inc.).

The Easement includes all rights granted herein that are necessary to authorize MCI Communications Services, Inc. a Delaware corporation, ("MCI"), lawfully to own, operate, use, permit others to use, and maintain the Telecommunications Cable System described in that certain Amended and Restated System Use and Service Agreement, dated September 1, 1991, between WTG-East, Inc., predecessor in interest to MCI and US Sprint Communications Company Limited Partnership, predecessor in interest to Sprint, and used by both MCI and Sprint ("the LightNet System"), provided, however, that nothing in this Easement shall be construed to convey rights to MCI, except through Grantee, in any telecommunications cable system other than the LightNet System.

No oil, gas, or other mineral rights are granted and no existing oil, gas, or other mineral rights are expanded, limited, or affected by this instrument, provided, however, that Grantor shall not use a method of extraction that interferes with or impairs in any way the Easement, the Telecommunications Cable System, or the exercise of Grantee's rights herein.

Grantor shall not, nor shall Grantor authorize others to, construct or create any road, reservoir, excavation, obstruction, structure, or building or change the land grade on, in, over, under, through, or across the Easement Premises without the prior written consent of Grantee, provided that nothing herein shall be construed to affect the rights and obligations of any railroad with respect to the use, improvement, or alteration of its Railroad Right of Way, as provided in any agreement between the railroad and the Grantee, by applicable law, or otherwise.

It is understood and agreed that the Easement is not exclusive and is subject to all pre-existing uses and pre-existing rights to use the Easement Premises, whether such uses are by Grantor or others and whether for surface uses, crossings, or encroachments by communication companies or utilities. It is further understood and agreed that Grantor retains all of its existing rights, if any, to grant, convey, assign, and restrict any and all rights (including future rights and uses) on the Easement Premises, provided, however, and notwithstanding the foregoing, that Grantor shall not use or authorize others to use the Easement Premises in a manner that interferes with or impairs in any way Grantee's Telecommunications Cable System or the exercise by Grantee of the rights granted herein.

Subject to the terms hereof, Grantee shall have all other rights and benefits necessary or useful to the full and complete enjoyment and use of the Easement for the purposes stated herein,

including the right to sell, grant, lease, or otherwise transfer all or any part of the rights in or use of the Telecommunications Cable System.

Grantor conveys the Easement without warranty of title to any property interest in the Easement Premises. This instrument does not address and shall not affect any real property rights, including the priority of interests, between Grantor and any railroad or between Grantee and any railroad, or any of their predecessors, successors, past or present predecessors in interest, successors in interest, successors in title, members, partners, parents, subsidiaries, affiliates, lessees, assigns, and past, current, or future licensees or assignees. This Easement is not intended to impact or diminish any railroad's existing rights or property interests in the Right of Way. This Easement shall not be construed to permit Grantee to interfere with railroad operations. This Easement also shall not permit any component of a Telecommunications Cable System to remain in a Railroad Right of Way except (a) under existing or future agreements with the railroad or (b) in any Railroad Right of Way in which no railroad operates and no railroad retains any right, title, or interest. This Easement also shall not permit any new components to be installed to connect the existing Telecommunications Cable System to the edge of the Right of Way in any Railroad Right of Way as to which the Interstate Commerce Commission or the Surface Transportation Board has entered an order, pursuant to 49 U.S.C. § 10903, that the railroad is authorized to cease to provide or maintain rail service over that right of way and the railroad no longer provides or maintains rail service over that line, provided that if the railroad does not cease such rail service or later reactivates such service, then this limitation shall not apply.

This Telecommunications Cable System Easement Deed is executed and delivered on behalf of Grantor for the purpose of granting the Easement to Grantee in, on, over, under, through and/or across the Easement Premises to the full extent of Grantor's right, title or interest, if any, in or to the Easement Premises, and the Easement granted hereby shall affect the Easement Premises only to the extent of Grantor's right, title, and interest therein. Grantor and Grantee agree that this Telecommunications Cable System Easement Deed shall not grant any rights to the Easement Premises, or any portion thereof, in which Grantor holds no right, title or interest.

No rights reserved to Grantor herein shall be deemed to expand rights reserved to Grantor under any other easement, right of way, license, lease, or any similar instrument or court order. No limitation herein on the rights of Grantee shall be deemed to limit rights heretofore granted by Grantor or its predecessors in interest under any other easement, right of way, license, lease, or any similar instrument or court order.

The terms and provisions of this instrument shall constitute covenants running with the land and shall be binding upon and inure to the benefit of the Settling Defendants, the Grantor, their successors, assigns, personal representatives, and heirs.

This instrument fully sets forth the terms and conditions of the Easement. There are no oral or other written agreements between Grantor and Grantee that modify, alter, or amend this instrument.

TO HAVE AND TO HOLD the Easement, rights and privileges unto Grantee, its successors and assigns in perpetuity or until such time as Grantee shall cause the Easement to be released of record.

3. Settling Defendants may record this Easement under the terms and conditions set forth in the Settlement Agreements.

Dated: Oct. 28, 2011

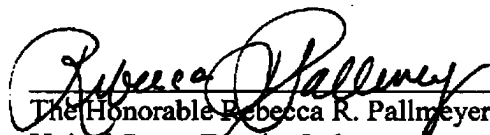

The Honorable Rebecca R. Pallmeyer
United States District Judge
